

Our Bratislava Employment and Labor Practice

White & Case is one of the few law firms that provides full-service employment and labor law-related advice in Bratislava. We serve as a “one-stop shop” for Slovak and international corporations doing business in the Slovak Republic.

Through the strength of our global network, foreign investors as well as local companies value our employment law capabilities and entrust us with their initial investments in Slovakia. We offer our clients **full support in all employment issues** arising in the course of their business and/or investment activities. Clients seek our advice on a wide range of issues from hiring new employees and drafting employment and management contracts, to reviewing their codes of conduct and internal regulations related to employment or evaluating remuneration structures and pension plans. We also advise on employee transfers and collective dismissals as well as employee-related disputes. We also provide for work permits and residential permits for expatriated employees.

Our Services

Our lawyers have considerable experience in advising clients on the full range of Slovak employment-related rules and regulations and the impact which those rules and regulations have on their businesses. As part of a global law firm, we have particularly strong experience in advising on the Slovak aspects of multinational deals, foreign investment in and/or from the Slovak Republic, divestments and winding-ups.

Our employment advice includes the following specific areas:

- **employment/management agreements**
- **employee handbooks, policies and procedures**
- **employee incentives (shares, stock options, and other long-term incentives)**
- **lay-offs, collective redundancies, reorganizations and divestures of businesses**
- **outsourcing, secondments and international assignments**
- **employment and benefits related litigation**
- **corporate governance, director’s duties**
- **collective bargaining**
- **immigration**
- **data protection**
- **employee tax and related social and health insurance issues**
